

July 3, 1972

SUBJECT:

Wells LS ERI-1, ERI-2, and ERI-109

TO:

Charles C. Songer
Oil and Gas Inspector

FROM:

Bruce E. Ziegler, Chief
Division of Oil and Gas*Bruce E. Ziegler*

As you are probably aware the Hammermill Paper Company has applied for plugging numbers on the subject wells.

I know you have contacted the company, and attended several meetings and discussed the plugging procedures, etc, and that another party had insisted that they get an outside consultant agency to investigate this matter and make recommendations.

An investigation and report has been made and prepared by David A. Waldron and Associates Inc. of Wooster, Ohio. We are sending you our copy of this report for your use during the abandonment of the three wells. When you are through with this report, please return it to this office for our files.
